# WHY BERKEY?

The Black Berkey® purification elements combine the age-old process of micro-porous filtration with state-of-the-art technology and the highest quality materials to bring you the finest water purification system available anywhere.

## HEALTHY

Why are the Berkey® systems the benchmark in gravity fed water purification? It's simple- they remove viruses, harmful pathogenic bacteria, cysts, parasites, pesticides, herbicides, pharmaceuticals, heavy metals, unhealthy contaminants and impurities to below detectable levels, while leaving in the essential minerals your body needs. The result is the most healthful, delicious water available.

## ECONOMICAL

Berkey® systems are the most economical water purification system you can own. The long life of the Berkey® Purification elements allows you to enjoy purified water for about two cents per gallon. Compare that to the cost of bottled water!

## POWERFUL

Berkey® systems can easily purify ordinary tap water, yet are powerful enough to efficiently purify raw, untreated water from sources such as remote lakes and streams. In the event of natural disasters and emergencies when treated water may not be available, your Berkey® is essential.

## CONVENIENT AND PORTABLE

Berkey® systems are easy to assemble and operate without tools, electricity, water pressure or plumbing. When traveling, or if space is limited, the top and bottom chambers of most of our systems nest within each other for easy transport.

## PROVEN

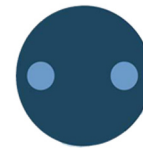

Our independent lab results speak for themselves. The Black Berkey® elements exceed expectations for gravity purification.

# 01. TRAVEL BERKEY SYSTEM

Height: 46 cm  
Diameter: 20 cm  
Weight: 2.8 kg empty

Maximum filters: 2 Black Berkey®  
Purification Elements (in upper chamber)

- . Storage capacity of about 5.7 liters.
- . For normal everyday use, this system easily serves: 1-3 people.
- . System includes upper and lower stainless steel chambers, 2 Black Berkey® Purification Elements, 2 wingnuts, 2 washers, 1 priming button, stainless steel lid, spigot, and a rubber gasket to protect the base.

# 02. BIG BERKEY SYSTEM

Height: 49 cm  
Diameter: 22 cm  
Weight: 3.2 kg empty

Maximum Filters: 4 Black Berkey®  
Purification Elements (in upper chamber)

- . Storage capacity of about 8.5 liters.
- . For normal everyday use, this system easily serves: 1-4 people.
- . System includes upper and lower stainless steel chambers, 2 Black Berkey® Purification Elements (expandable up to 4), 1 stainless steel lid, 1 spigot, rubber gasket to protect the base, 2 wingnuts, 2 washers, 1 priming button, and 2 blocking plugs.

# 03. ROYAL BERKEY SYSTEM

Height: 59 cm  
Diameter: 25 cm  
Weight: 3.6 kg empty

Maximum Filters: 4 Black Berkey®  
Purification Elements (in upper chamber)

- . Storage capacity of about 12.3 liters.
- . For normal everyday use, this system easily serves: 2-4 people.
- . System includes upper and lower stainless steel chamber, 2 Black Berkey® Purification Elements (expandable up to 4), 1 stainless steel lid, 1 spigot, 2 wingnuts, 2 washers, 1 priming button, 2 blocking plugs, 1 rubber gasket to protect the base.

# 04. IMPERIAL BERKEY SYSTEM

Height: 66 cm  
Diameter: 26 cm  
Weight: 4.5 kg empty

Maximum Filters: 6 Black Berkey®  
Purification Elements (in upper chamber)

- . Storage capacity of about 17 liters.
- . For normal everyday use, this system easily serves: 4-8 people.
- . System includes upper and lower stainless steel chambers, 2 Black Berkey® Purification Elements (expandable to 4 or 6), 1 stainless steel lid, 2 washers, 2 wingnuts, 4 blocking plugs, 1 priming button, 1 spigot, 1 rubber gasket to protect the base.

# 05. CROWN BERKEY SYSTEM

Height: 77 cm  
Diameter: 28 cm  
Weight: 5.4 kg empty

Maximum Filters: 8 Black Berkey®  
Purification Elements (in upper chamber)

- . Storage capacity of about 22.7 liters.
- . For normal everyday use, this system easily serves: 6-12 people.
- . System includes upper and lower stainless steel chamber, 2 Black Berkey® Purification Elements (expandable to 4, 6, or 8), 1 stainless steel lid, 1 spigot, 2 wingnuts, 2 washers, 1 priming button, 6 blocking plugs, 1 rubber gasket to protect the base.

# Berkey Systems:

	AMOUNT WILL HOLD	NUMBER OF ELEMENTS	SIZE	PARTS ASSEMBLED IN THE USA	STAINLESS-STEEL
Travel Berkey	5.7 liter		46 cm X 20 CM	✓	✓
Royal Berkey Sytem	12.3 liter		59 cm X 25 cm	✓	✓
Big Berkey System	8.5 liter		49 cm X 22 cm	✓	✓
Imperial Berkey system	17 liter		66 cm X 26 cm	✓	✓
Crown Berkey System	22.7 liter		77 cm X 28 cm	✓	✓

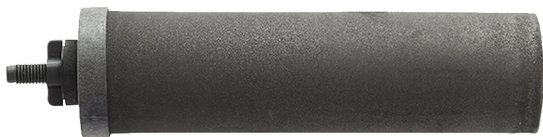

# Black Berkey Purification Elements

\*The Black Berkey® Purification Elements are made and assembled in the USA.

. Black Berkey® Purification Elements are the leader in gravity-fed water purification, backed by independent testing.

. The Black Berkey® Purification Element formulation has been tested by State and EPA accredited laboratories to exceed NSF/ANSI Standard 53.

. Includes: Two 9 Black Berkey® Purification Elements with 2 washers, 2 wing nuts, and 1 priming button. Installs in the upper chamber of any Berkey system. Elements can also be used to upgrade most other gravity-fed water filter systems.

. Sold as a set of 2 elements.

. Durability: Each Black Berkey® Element is designed to purify approximately 22,000 liters of water before needing replacement; 2 elements in a Berkey system will purify approximately 6,000 gallons of water before replacement is recommended.

. Re-cleanable and self-sterilizing during the life of the element.
