

A woman is shown in profile, facing right, with her eyes closed and a serene expression. She is standing under a showerhead, and a thick spray of water is directed towards her face and neck. The background is a bright, slightly blurred indoor space with green plants. The overall mood is one of relaxation and freshness.

**"EXPERIENCE THE ULTIMATE COMFORT AND  
CONVENIENCE WITH HEISS WATER HEATERS -  
DELIVERING THE PERFECT BALANCE OF  
EFFICIENCY, RELIABILITY, AND LUXURY TO  
ELEVATE YOUR DAILY ROUTINE."**

Introducing the benefits of Heiss central water heaters - the ultimate solution for your home.

Energy efficient, cost-effective, and convenient, our central water heaters provide hot water instantly from all outlets. Heiss home boilers are vital to any modern home to maintain the impeccable design of your bathrooms.

The glass-lined enamel tank and magnesium anode rods help to protect against corrosion and prolong the lifespan of the tank.

The safety features of Heiss central water heaters comply with IEC 60335 test standards, ensuring that users can enjoy their hot water without worrying about safety issues. Heiss water heaters are also designed to prevent limestone buildup and heavy metal contamination, further adding to their reliability and safety.

Overall, Heiss home boilers offer a reliable, efficient, and safe hot water solution for both indoor and outdoor use.

## SUSTAINABILITY

Heiss Home Boilers are incredibly efficient, producing lower emissions and eliminating the need for oil or gas. Heiss electric water heaters have an automatic adjustable thermostat that helps save energy by switching off the heater when the desired temperature has been reached or when there is no water consumption. With Heiss water heaters, you can enjoy reliable, efficient hot water while doing your part for the environment.
